

Introduction:

1. BigIQkids' programs are online educational programs specifically designed for elementary & middle school children, parents and teachers.
2. The program presents daily spelling, vocabulary, math facts and U.S. geography lessons in a dynamic, fresh environment making learning fun and promoting scholarship and independent study;
3. BigIQkids utilizes leading edge text to speech technologies and phonetically correct avatars (virtual interactive character);
4. Users are rewarded with an arcade of educational and strategy games to play once they have completed their lessons;

Benefits to Young Learners:

1. Provides an interactive environment that promotes self-learning and independent study;
2. Reinforces subject matter learned in student's curriculums;
3. Simulates classroom test taking scenarios;
4. Defeats test anxiety and builds self confidence;
5. Delivers early computer based learning experience and improves typing skills;
6. Builds a positive association with academic evaluation (test taking).

Benefits to Parents:

1. BigIQkids.com instantaneously sends progress reports and quiz results via email to parents;
2. Children love the application and their grades WILL improve;
3. Excellent educational alternative to TV, video games and the internet;
4. Leverages existing technologies – computer and broadband connection.

Proper Foundation:

For many young learners, the Friday spelling, vocabulary, math and U.S. geography tests are their first encounter with scholastic evaluation. In order to foster a positive association towards test taking and scholarship, these earliest experiences need to be fun and encouraging. BigIQkids programs provides a proven, interactive learning platform capable of promoting each student into the 100% Club!

“The best part about this program is the way the spelling words are presented — in a clear, spoken voice, used both alone and in a sentence.”

-Warren Buckleitner, Editor
Children’s Technology Review

Editors Choice Award

“Kids will love the fun games from BigIQkids.com. You choose and enter your own words; kids practice on their own.”

-January/February 2007

“BigIQkids Spelling Program is a great solution for those parents, teachers and home-schoolers whose children need help with that dreaded Friday spelling test.”

Testimonials

"As a father I can honestly say that my child loves it. He got to do the word search on the smart board at school today which makes it larger than life. When he got home, he logged on and did it again just for fun. He said he is hoping to make a 100% on this weeks test."

Leroy Steigerwalt
4th Grade Teacher
South Carolina

"You have come up with a terrific program! My daughter loves a challenge and my son has a terrible time and your program works for both! I only hope that you continue it for the higher grades! I think your program will be the solution to MY family's spelling woes!!"

Hollee Shomette
Parent
Virginia

"My son has had spelling problems all year! His teacher introduced BigIQkids.com and now he is excelling. We love the fact he can practice at home on the computer and I am updated on his progress. Thank you! Now, a very Happy Mother!"

Rebecca Hardin
Parent
Texas

"Firstly, I want to say that BigIQkids.com is an incredible learning tool. My daughter actually looks forward to practicing her spelling! And, I hate to brag, ..she made 100% on last Friday's test. Thank you!"

Tim Graeme
Parent
Albany, New York

Testimonials

"I teach first grade and it has really made a difference with our students. One little guy who had been getting 70's on his spelling tests, got his first 100 last Friday. What a thrill for him. My students get to make their 100 test into a paper airplane and fly it to see who can go the furthest. He won so he got a prize out of the prize box. He kept say, "I'm having a lucky day!" Thank you for developing this site."

Dorothy Nelson
Teacher
Austin, Texas

"I saw the site and tried it! Now in my classroom we use BigIQkids.com for every day! I connect the lessons from the laptop to the overhead and voila!! This is wonderful considering as a teacher we compete with the TV, Play Station, and online gaming. Thank you so much!"

Carrie LaBarge
Teacher
Florida

"I am an Information Technology Instructor at Brookside Elementary. I was searching for web sites that had grade level content that coincides to our units. I decided BigIQkids programs more than passed my requirements, so I am promoting it to our teachers and students."

Tom Pisano
Teacher
Boulder, Colorado

Friday's new face
